<b>6</b>	<b>JavaScript</b>	<b>2</b>

### Introduction

The website design for the Government Polytechnic College, Palakkad, aims to provide a user-friendly navigation experience, offering quick access to key information about the college departments and facilities.

## 2 About the Design

The design incorporates a main navigation bar, a content area for detailed information, and various sections that guide users through the site's offerings, including academic departments, campus facilities, and contact information. A search functionality is also integrated to facilitate easy access to information.

### Website Structure

### **3 Homepage**

The homepage presents an overview of the college, including its mission, academic programs, and a brief history. The main navigation bar offers links to various sections of the website.

### **4 Department Overviews**

Each department page includes detailed information about the programs offered, faculty, and resources available to students. Links to Google Maps provide directions to department locations.

Technical Implementation

### **5 HTML and CSS**

The website's structure is defined using HTML5, with CSS3 used for styling. This includes a responsive design that adapts to different screen sizes, ensuring accessibility across devices.

### **6 JavaScript**

JavaScript is employed to enhance interactivity, particularly in the search functionality and navigation menu animation.

Conclusion

This report outlines the design and structure of the Government Polytechnic College, Palakkad's website, designed to enhance user engagement and accessibility to important academic and campus information.
